ABOUT THE UNITED STATES HISPANIC CHAMBER OF COMMERCE

The USHCC actively promotes the economic growth, development, and interests of more than 4.7 million Hispanic-owned businesses, that combined, contribute over $800 billion to the American economy every year. It advocates on behalf of its network of more than 250 local chambers and business associations nationwide, and also partners with more than 260 major American corporations. For more information, please visit ushcc.com. Follow us on Twitter @USHCC.
On behalf of our United States Hispanic Chamber of Commerce Board of Directors and our staff, we want to thank each of you for your membership and support of our collective mission to build an ecosystem to accelerate Hispanic business growth and prosperity throughout America.

Together with our national network of more than 260 Hispanic Chambers of Commerce, each of which serve as an economic oasis in their communities, we have engaged in advocacy, provided small business technical assistance services, and utilized virtual technology to address the effects of the COVID-19 economic crisis. Our core mission is dedicated to adding value to our 4.7 million Hispanic-owned businesses, which collectively contribute more than $800 billion to our American economy each year.

We live during a period of time in our nation’s history that has challenged the resiliency and perseverance of all Hispanic Business Enterprises which have continuously been innovating and adjusting their business operational models to rise to the challenge of this economic crisis. 2020 was a year of reflection, resetting, and rebuilding. We are proud to continue to add value to our USHCC Chamber Members through innovative programming and resources for our Hispanic Business Enterprise (HBE) Members and create new partnerships with America’s largest corporations to the benefit of our Hispanic business community.

The USHCC has an active, philanthropic arm dedicated to providing educational programs to our Latino small business community. Through our USHCC Educational Fund 501(c)(3), we expanded our Avanzar small business accelerator program to seven states, each cohort led by a local Hispanic Chamber of Commerce in their community. Our small business accelerator program has already graduated more than 200 small Hispanic-owned businesses who are ready to scale and take their businesses to the next level thanks to this partnership between our corporate members and our local chambers.

The USHCC also awarded hundreds of thousands of grant dollars directly to small business owners and to our local chambers of commerce to provide immediate sustainability support during this pandemic. These funds served as a direct lifeline for our Latino-owned businesses to fund business operations like payroll, rent, and other critical needs. We provided technical assistance, established online resource hubs in English and in Spanish, and provided financial relief to expand COVID-19 relief efforts to our members through generous partners such as Cargill, Rumba Meats, Google, Wells Fargo, and many others.

In summary, 2020 was our most active year in Washington, D.C. on behalf of our member businesses and local chambers of commerce network. As America’s largest Hispanic business organization, our unified voice was heard loud and clear in the halls of Congress and with the federal Administration. We were proud to raise $850 billion to provide small business assistance for our national network of Hispanic Chambers of Commerce to successfully advocate for access to the Paycheck Protection Program (PPP) for both Hispanic-owned businesses and 501(c) (6) Chambers of Commerce, second draw PPP forgivable loans, funding for bilingual technical assistance through a public private partnership with our Hispanic Chambers of Commerce and the Minority Business Development Agency (MBDA), among other key initiatives.

Dear USHCC Members…

A LETTER FROM
OUR PRESIDENT AND CEO

[Image 323x407 to 568x762]
Our vision is to be the leading voice to advance Hispanic business potential to drive our American economy. To this end, we have focused our advocacy on behalf of our Hispanic-owned businesses, Hispanic Chambers of Commerce, and Corporate Partner Members guided by our “Three C’s”:

**Capital**
Expanding equitable access to capital through traditional and innovative partnerships.

**Capacity**
Building capacity through programming, training, and new grant investments, and...

**Connections**
Establishing connections through matchmaking, procurement, and advocacy.

We will strengthen our collective voice as America’s largest Hispanic business organization to advocate for equity and a seat at the decision-making tables in the U.S. Congress, Administration, and America’s largest corporations on behalf of our Latino community. We as a nation must continue to expand access to capital, education, and procurement opportunities to unleash the potential of our $2.6 trillion Latino GDP into the future.

Together, we will create generational wealth in our Latino community through education and entrepreneurship, and we will power America’s economic recovery.

Respectfully,
**Ramiro A. Cavazos**
President & CEO
United States Hispanic Chamber of Commerce
