

A Statement from United States Hispanic Chamber of Commerce CEO and President Ramiro A. Cavazos on the “*More Paid Leave for More Americans Act*”

WASHINGTON, D.C. — "The USHCC commends the introduction by Senator Boozman and Senator Gillibrand of the *More Paid Leave for More Americans Act*. A bipartisan effort on paid leave is essential to creating effective solutions that help small business owners better find and retain high-caliber talent and compete with larger companies. The USHCC has been actively involved in the efforts at the federal level to find paid leave solutions that work for small business owners, and we look forward to working with both the Senate and House on advancing paid leave legislation."
