A Statement from USHCC CEO and President Ramiro A. Cavazos, on the passing of Dolores Huerta

"**Dolores Huerta** set the example of how ordinary Americans, when organized and determined, can improve the course of our proud nation.

Her rallying cry, *¡Sí, se puede!* (Yes, we can!), will live on in every person who stands up for fair pay and the right to vote, defends our country, and supports every entrepreneur with a dream who creates jobs for our economy.

Dolores understood that justice and economic opportunity are inseparable. Her passion for fair, merit-based economic dignity reflects the same principles that drive our nation's more than 5 million Hispanic businesses today.

On behalf of the **United States Hispanic Chamber of Commerce** and our network of 260 chambers nationwide, we extend our heartfelt condolences to her children, her family, and the Dolores Huerta Foundation. We honor her best by continuing her work. ***Descanse en paz***, Dolores."
